

# Innovate 3.0: Hack to Build

JIITYouth Club-128,Noida

Jaypee Institute of Information Technology,WishtownCampus,Noida

**Team Name:** Krishna

**Problem Statement Title:** Lack of a Structured, Audit-Ready Communication Interface for Small CA Firms and Their Clients

**Theme:** Open Innovation (Audit & Compliance Automation)

**Name of Team members:** Kashish, Hridesh, Nupur, Siddhi, Rohan

**Leader:** Kashish

# IDEA TITLE & PROPOSED SOLUTION

## AuditBridge – A Client–CA Collaboration Platform

- Role-based digital platform for Small Businesses & CAs
- Two dashboards
  - 1. Client Dashboard → upload docs, view deadlines
  - 2. CA Dashboard → audit checklist, status tracking
- Centralized workspace for audit-related information sharing
- Focused on audit preparation, not accounting or filing

### How It Addresses the Problem

- AI-based Document Detector
- Replaces WhatsApp, email, Drive with one structured system
- Predefined audit-wise document checklists
- Real-time visibility of document
- Automated reminders reduce manual follow-ups

AuditBridge  
ABC Traders • GST Audit • CA: Sharma & Co.

**Audit Progress**  
62% documents completed

Total Docs 8 Submitted 5

Pending 2 Deadline 30 Sep

**Sales Invoices (Apr-Jun)**  
All outward GST invoices  
Submitted

**Purchase Invoices**  
Vendor GST invoices  
Pending

Upload Document

**Expense Register**  
Monthly expense summary  
Pending

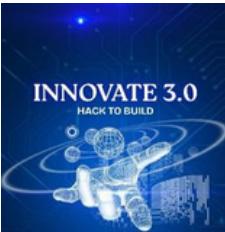

Upload Document

**Bank Statements**  
All business accounts  
Verified

Already Verified

Secure • Visible only to you and your CA

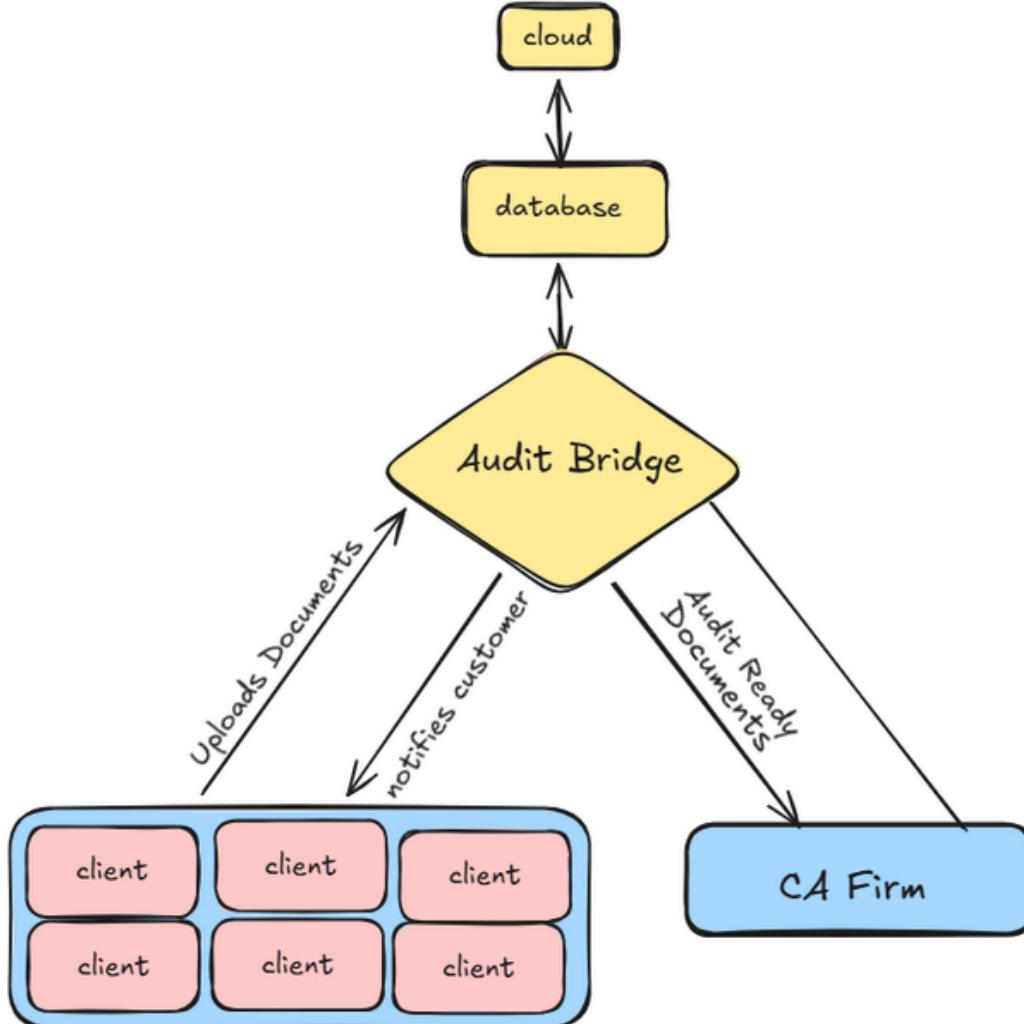

2

# TECHNICAL APPROACH

- Html,Java Script, Css,PostgreSQL
- Secure cloud storage

Krishna | Client Portal

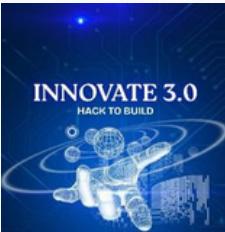

Client: ABC Traders | CA: Sharma & Co.

Compliance Type	Documents Required	Submitted	Deadline
GST Audit	8	5	30 Sep 2026

Document Name	Description	Status	Action
Sales Invoices (April–June)	All outward GST invoices	Submitted	-
Purchase Invoices	Vendor GST invoices	Pending	Upload
Bank Statements	All business accounts	Verified	-
Expense Register	Monthly expense summary	Pending	Upload

© 2026 AuditBridge | Documents are visible only to you and your CA

This screenshot shows the 'Krishna | Client Portal' interface. At the top, it displays 'Krishna | Client Portal' and 'Client: ABC Traders | CA: Sharma & Co.'. Below this is a summary table with four columns: 'Compliance Type' (GST Audit), 'Documents Required' (8), 'Submitted' (5), and 'Deadline' (30 Sep 2026). The main area is a table listing documents with columns: 'Document Name', 'Description', 'Status', and 'Action'. The table rows are: 'Sales Invoices (April–June)' (All outward GST invoices, Submitted, -); 'Purchase Invoices' (Vendor GST invoices, Pending, Upload); 'Bank Statements' (All business accounts, Verified, -); and 'Expense Register' (Monthly expense summary, Pending, Upload). At the bottom, a copyright notice reads '© 2026 AuditBridge | Documents are visible only to you and your CA'.

# FEASIBILITY AND VIABILITY

## Feasibility:

- Uses existing web technologies.
- No dependency on government or any regulation problems.
- Quick access to the platform.

## Challenges and Risks:

- Client adoption resistance
- Data security concerns from the client side.

## Mitigation Strategies:

- Simple and minimal interface which makes it easier to adopt for everyone.
- Encrypted storage and access control.

# IMPACT AND BENEFITS

- Saves time for CAs and staff
- Reduces audit delays and errors
- Affordable for small firms
- Improves client compliance experience

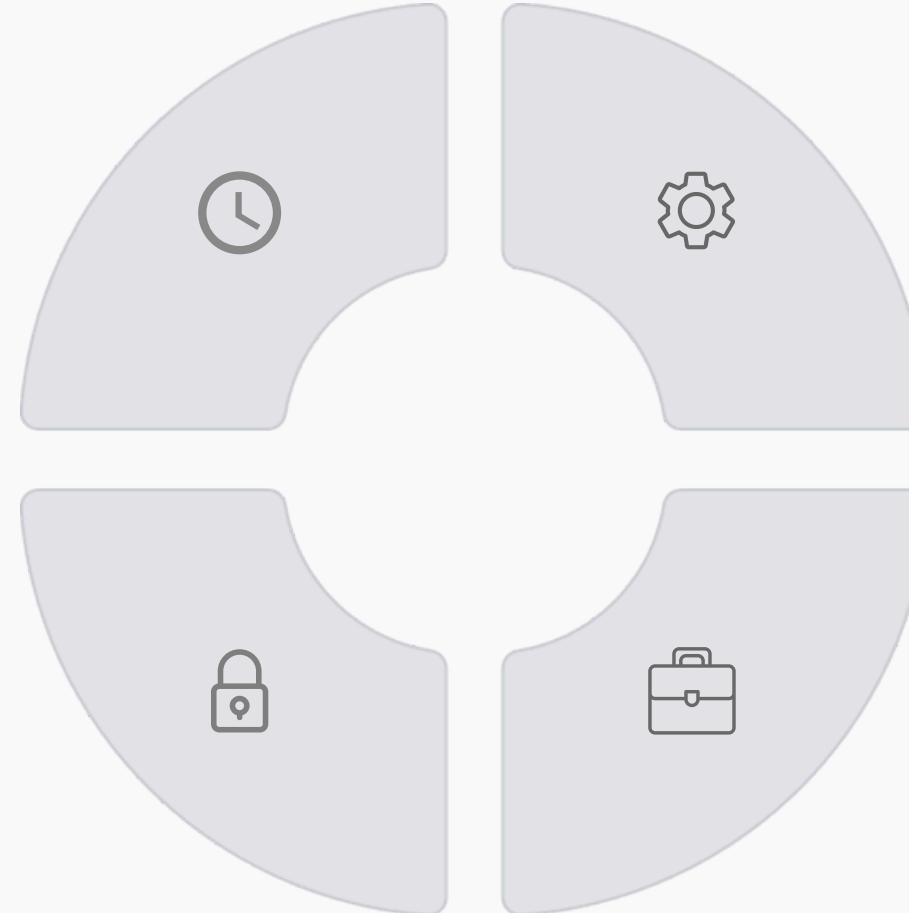

# Highlights of the Idea

## Time & Cost Efficiency

Reduces turnaround time and operational costs by automating workflows, offering a lightweight alternative to expensive enterprise solutions.

## Robust Data Security

Secure authentication and controlled access ensure confidentiality, data integrity, and compliance with professional standards.

## Enhanced Productivity

Centralized workflow management improves efficiency, minimizes manual effort, and enables professionals to focus on high-value tasks.

## Commercially Sellable

Designed as a scalable and subscription-based solution that can be monetized and offered as a sellable SaaS product to CA firms.
